Comde-Derenda GmbH

Comde-Derenda GmbH has over 20 years of experience in the development and production of aids for the blind. Customer feedback and cooperation with organizations and experts, such as mobility coaches, are important factors for our production and innovation process. Our white canes and cane tips are manufactured by hand in Germany and Switzerland.

Today's Comde-Derenda GmbH was founded in 1972 as an engineering office in Berlin. Its business object was the development and production of environmental technology devices, such as dust samplers for air quality measurement. In 1992, COMDE GmbH was founded. This company was focused mainly on gas measurement technology for high voltage applications.

Both companies merged in 2012, forming Comde-Derenda GmbH. Our company is located in Stahnsdorf, which is close to Berlin. Our three company buildings are home to all three of our business areas: Gas pressure and density measurement, environmental measurement technology, and aids for the blind. Comde-Derenda GmbH is certified according to DIN EN ISO 9001:2015.
